When you arrive in the United States at an airport or through a border crossing, you will need to go through immigration and customs. Here is what you need to know...

Before leaving home

Required and Recommended Documents

Immigration Inspection

Customs Inspection
F-1 students and all J-1 exchange visitors (including J-1 students) are required to have health insurance through IUPUI.

Even if you have health insurance in your home country, the U.S. insurance system is probably quite different. See our glossary of terms.

Learn about insurance for students »

HEALTH RECORDS & IMMUNIZATIONS

IUPUI requires proof of immunizations for all new students. Any non-English medical documents used to show proof of immunizations must be translated into English.

For a full list of required immunizations, see "Health Records and Medications" on our website.

Review health records information »

TUBERCULOSIS (TB) TESTING

New students are also required to show proof of a tuberculosis (TB) test taken in the United States.

If you do not have proof of a TB screening taken in the US, TB screenings will be administered by IUPUI Campus Health. You must visit the Campus Health Office and get your TB test within 5 weeks of the start of the semester.
